

1 Why is the problem a problem?

E.g. problem description

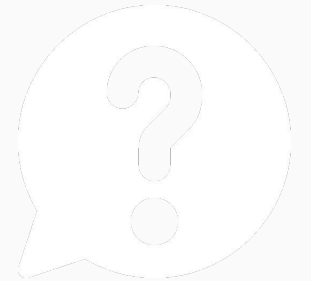

↓
Parents worry about their children's safety because they can't always monitor them.

2 Why?

E.g. direct impact

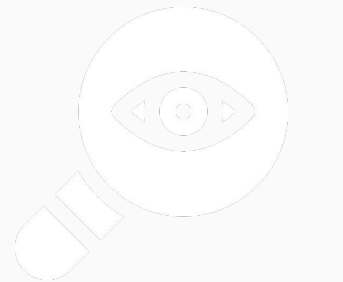

↓
This worry causes stress and affects parents' ability to focus on work and other responsibilities.

3 Why?

E.g. cause - effect

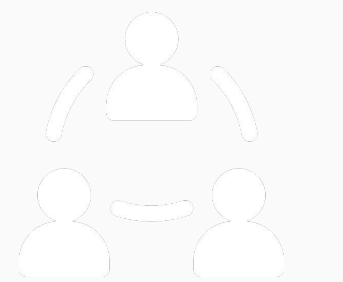

↓
Current safety solutions are either too invasive or don't give enough real-time information.

4 Why?

E.g. organizational hurdles

↓
Organisations like schools lack coordinated and efficient safety tracking systems.

5 Why?

E.g. system hurdles

There are challenges in using advanced technology effectively and affordably in child-friendly devices
